ARTIST

ILLUSTRATOR

WEB DESIGNER

PHOTOGRAPHER

GRAPHIC DESIGNER

Design has been a passion of mine my whole life. I love what I do and it shows in my work. My goal as a graphic designer is to create inspirational and innovative design concepts that capture an audience. I'm efficient, hard-working, responsible, organized, and a fast learner.

WORK EXPERIENCE

2016-
Student-
Eastern Arizona College

My objective was to earn my AAS degree in Graphic Design. I'm currently due to graduate in May, 2018. Over the course of two years, I had multiple artworks I completed put up for display on campus. I made the President's list every semester and maintained a 4.0 GPA the entire time.

2015-2016
Volunteer-
Morenci High School

My responsibilities consisted of aiding students with design concepts to create a designated theme for school events and school functions. Our aim was to use all recycled material or material that could be used by future classes. I was in charge of keeping students on task, organizing and taking inventory of material, design cohesion, and problem solving.

2005-2008
Self-Employed-
Freelance artist

While I maintained employment at Beau Jo's pizzeria in Idaho Springs, CO, I completed numerous projects for multiple clients in my spare time. I did everything from logo and tattoo designs, to wall murals for local businesses. I also created artwork for my parents T-Shirt printing business where they catered to school spirit apparel, as well as apparel for several local organizations.
